CONTRIBUTIONS BY PROF. JINABAI G. LAD

IT HAS TO BE POINTED OUT THAT PROF. JINABAI G. LAD, PRINCIPAL EMERITUS, TAUGHT THIS SUBJECT FROM THE BEGINNING.

FROM HIS RESEARCH AND FINDINGS OVER THE YEARS, HE HAS ADDED A FEW TOPICS AND ELABORATED ON THE SUBJECT TO GIVE MORE CLARITY, FORM AND SUBSTANCE.

I EXPRESS MY DEEP GRATITUDE TO HIM FOR FILLING IN THE MISSING LINKS AND MAKING IT EASIER FOR THE STUDENTS TO FOLLOW THIS SUBJECT.

THE THEORY AND GENERAL RULE IN BRIEF”

In Chapter VIIth of his book MEDITATIONS UPON CERTAIN PRINCIPLES FROM BRIHAT PARASHARI - OPERATING THROUGH NAVAMSHA: A DIVINE PLAN, the author, (सुर्येन्दुलग्न संयोगे)

Sayanacharya Shridhar Govind Joshi states about _____ “SURYENDU LAGNA SMYOGE” - THE SUM LONGITUDES OF THE SUN, THE MOON AND THE ASCENDANT.

He further goes on to state :

सुर्येन्दुलग्न संयोगे राशीश स्पष्ट संयुते ॥

After adding the longitudes of the Sun, the Moon and the Ascendant, the sum longitude so obtained is again added to the longitude of the Lord of the sign – the lord of the sign owning the house in question.

By an example, he states, for analyzing the “Bhagya” (fortune) of the native we should add the longitude of the lord of the IXth house (Mars) to the sum of the longitudes of the Sun, the Moon and the Ascendant, as shown below:

Planets & points	S	°	'
The Sun	06	14	06
The Moon	02	02	52
The Ascendant	04	05	24
Mars (Lord of IX)	07	28	50
	<u>08</u>	<u>21</u>	<u>12</u>

i.e.: Sagittarius 21° 12

In the above case, the fortune of the native is linked to the point : Sagittarius 21° 12

Whenever the transits of Jupiter, Saturn, Herschel, etc. are favourable to this point, the native will experience a significant uplift to his lifestyle.

Similarly, the intensity of events/matters related to other houses could be gauged if we add the longitude of the lord of the respective house to the sum of the longitudes of the Sun, the Moon and the Ascendant and the results could be experienced only after such experiments.

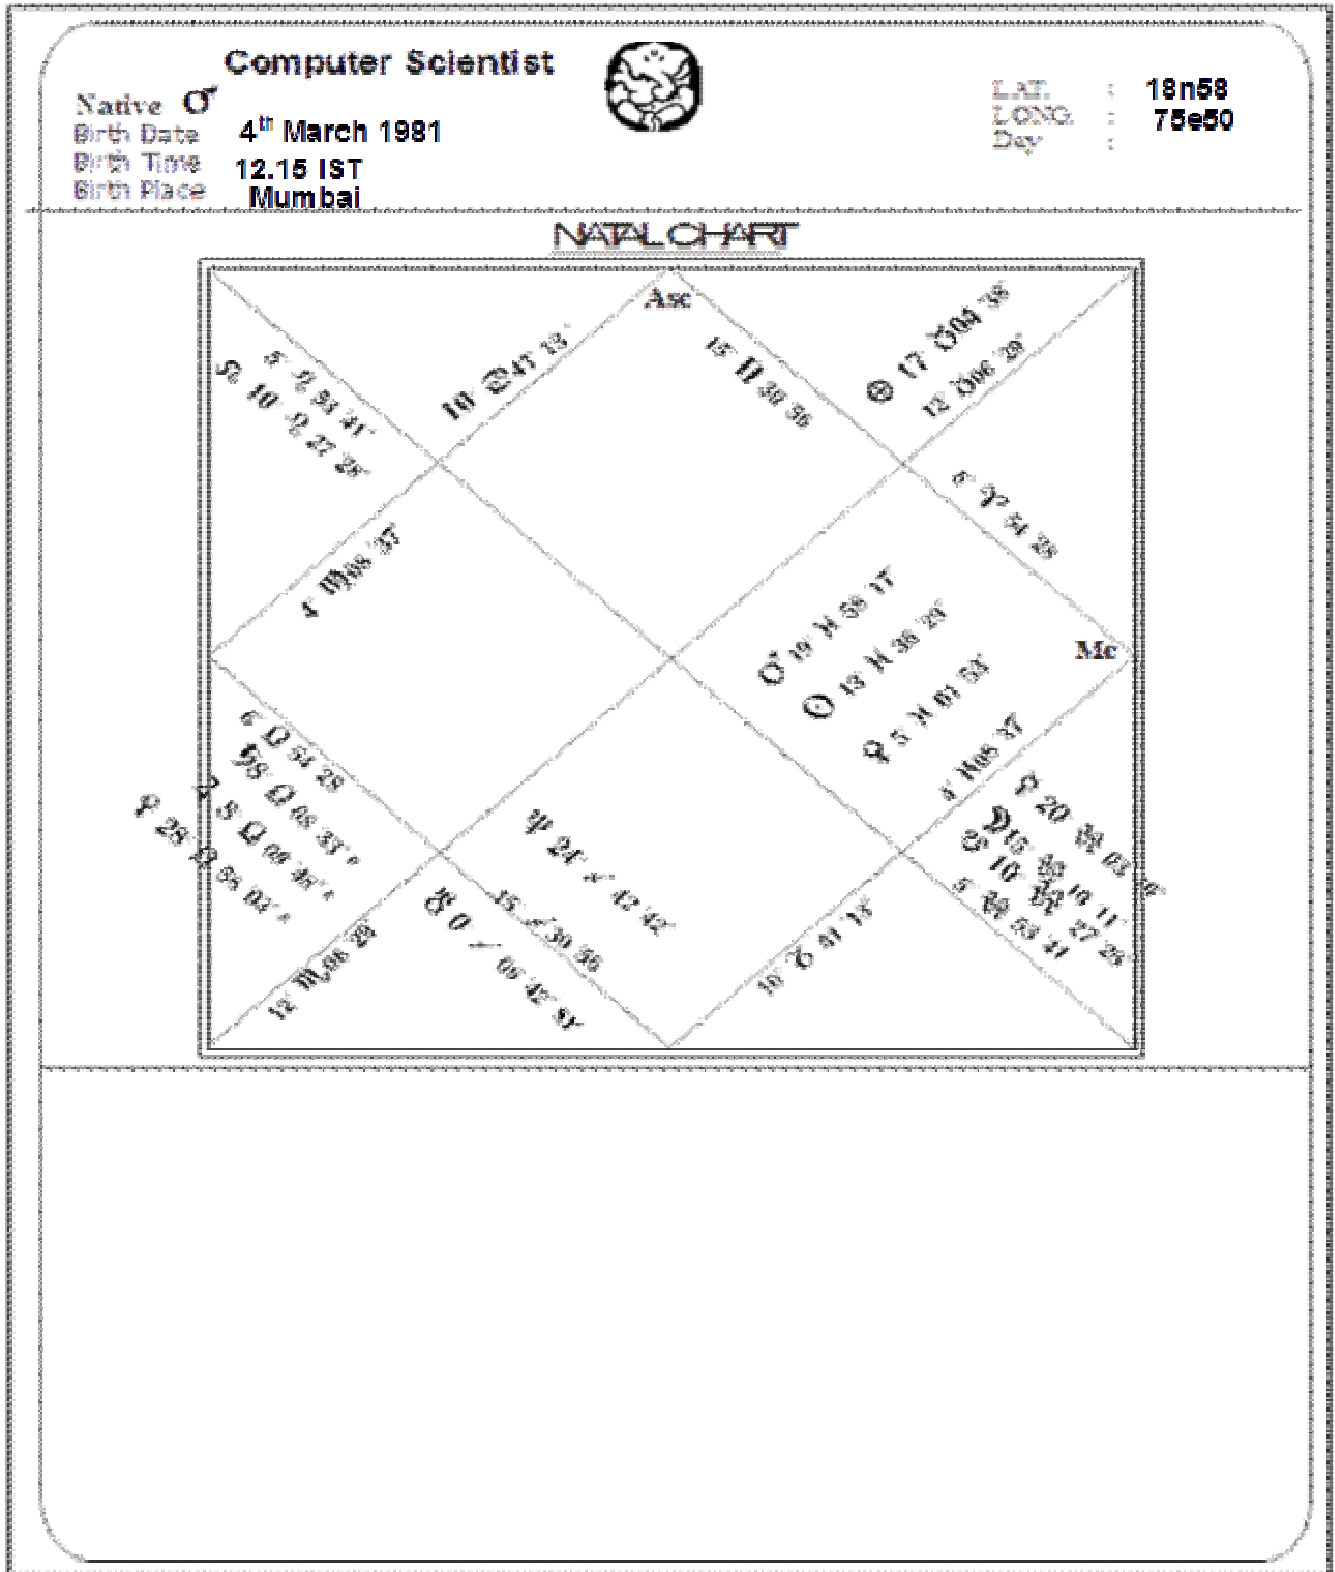

In the following four live case studies, the Tropical or Moving or Sayana Zodiac is used.

To get salary, there should be service, employment, profession and consequently remuneration.

- **One normally refers to financial trine, comprising of Houses 2, 6 and 10.**
- **2nd House refers to total liquid cash, bank balance, self acquisition, etc.**
- **6th House refers to service rendered, day-to-day attendance on duty and thereby earning or remuneration. 6th house refers to service, subordinates, employees, occupations through necessity rather than choice that give little honour or renown.**
- **The 10th House refers to profession, either in independent vocation or in service. The 10th house rules occupation, employers, honour, power and position.**

ASTROLOGICAL POINTERS TO PROFESSION - TIMING OF FIRST SALARY

Salient features of the horoscope:

Ascendant cusp 15° Gemini $30' 56''$ falls on Regal, a star according to Ptolemy and Lilly it is of the nature of Jupiter and Saturn, but later authors consider it favorable and similar to Jupiter and Mars. Alvidas likens it to Mercury Mars and Jupiter. It gives benevolence, honor, riches, happiness, glory, renown and inventive or mechanical ability. Ebertin says : If Regal is conjunct with the Sun, Moon, MC or Ascendant, quick rise in life is promised on account of a strong, inherent will power, love of action, and a lucky hand in enterprise. A continuous battle to retain an acquired position has to be waged. This fight at the same time stimulates an increase in vigor. Even in spite of unhelpful aspects, success and reaching the set aim can be secured by this powerful concentration. If however the native is not cautious or has an attack of weakness, failure and disappointments, a fall from success will follow.

Ascendant Lord, Mercury, is in Aquarius along with Moon, well aspected by Jupiter, Saturn and Pluto, who is on Spica, a very fortunate star in the heavens. All these planets from 5^{th} and 9^{th} favourable aspect the Ascendant, forming a grand Airy Trine. Moon is on SUALOCIN, also called also called Dhanishtha, "Richest" the Vasus, "Bright or Good Ones" Ruled by Mars. A mutable asterism belonging to the serving caste and favorable for commencing work of an impermanent or moving character. With Moon here at birth native will be wealthy, liberal, fond of music, valiant. Mercury is on Nashira, and according to Ptolemy it is of the nature of Saturn and Jupiter; and, to Simmonite, of Saturn. It causes overcoming by evil, which is turned to success. According to Arabic tradition this star will make a native become a legal advisor or counselor and will give such a person the ability to hold a position of trust. This star makes for integrity and justice and gives a knowledge of man. Therefore we see here a refining Saturn influence, this will be achieved if the natal Saturn is well placed.

The M.C. is hemmed between SADALMELIK, FOMALHAUT and DENIB ADIGE, and all these stars favour arts and science.

The Sun is on ACHENER, giving gives success in public office, beneficence, and religion. Ebertin states: If well-placed, it promises happiness and success by giving good morals, faithful adherence to one's religious beliefs or philosophical inclinations. According to tradition, Achernar is credited with bestowing high offices in the church, especially if conjunct with Jupiter.

William Lilly, in Christian Astrology, writes: "The fixed stars give great gifts, and elevate even from poverty to an extreme height of fortune, the seven planets do not do so."

ASTROLOGICAL POINTERS TO PROFESSION – TIMING OF FIRST SALARY

Transit planets favourably aspecting Suryendu of VIth House (08 °, 15 ` 36 ”) and also houses of financial trines (II , VI and X houses):

ASTROLOGICAL POINTERS TO PROFESSION – TIMING OF FIRST SALARY

The Ascendant falls on MARSIK in the constellation of Hercules and according to Ptolemy it is like Mercury. It is said to give strength of character, tenacity and fixity of purpose, an ardent nature.

Moon and Mercury fall on ALTAIR "Al Nasr al Tair" that constitutes the twenty-first nakshatra (Hindu Moon Mansion) Shravana. Robson says that it is "ruled by the Moon. A mutable asterism belonging to the lowest caste and favorable for commencing work of an impermanent or moving character. Those born on the lunar day will be cunning, active, bold, truthful, virtuous, religious and skilful. With Moon here at birth native will be rich, learned, famous, and have a good wife. Rules parade grounds and private parts." He further says that with Mercury on it the native faces many difficulties, misfortunes, and strange experiences. Disappointment on long journeys, bad for partnership, loss of a relative under strange circumstances.

According to Ptolemy the influence of Aquila is similar to that of Mars and Jupiter. It is said to give great imagination, strong passions, indomitable will, a dominating character, influence over others, clairvoyance, a keen penetrating mind and ability for chemical research.

The Sun conjunct Sturn on the Nadir are on Alford. Alvidas says that Alvidas it is similar to the Sun and Jupiter in sextile. It gives wisdom, musical and artistic appreciation, knowledge of human nature, strong passions, lack of self control. Robson is of the opinion that "With Sun: Power and authority but suffering through own acts and from enemies, loss of position and honor, overcome by enemies." The native was working for a leading politician of Maharashtra and in March 1993, he won the election and was made a Minister for a very important portfolio. The native was made his official Secretary then.

With this brief background, we go the timing of his job and salary:

For service and wages add the longitude of the lord of the VIth house (Mars) to the sum of the longitudes of the Sun, the Moon and the Ascendant, as shown below:

Planets & points	S	°	'	"
The Sun	10	22	06	42
The Moon	10	01	32	06
The Ascendant	07	24	06	25
Mars (Lord of VI)	10	23	16	51
Total	39	11	02	04
Total after expunging multiples of 12 signs	03	11	02	04

i.e. 11° 02' 04"

In this case for service of position and honour and wages, by adding the longitude of the lord of the Xth house (Sun) to the sum of the longitudes of the Sun, the Moon and the Ascendant, we arrive at a suryendu of the Xth house, which is identical to that of the Suryendu of the VIth House, as shown below:

Planets & points	S	°	'	”
The Sun	10	22	06	42
The Moon	10	01	32	06
The Ascendant	07	24	06	25
Sun (Lord of X)	10	22	06	42
Total	39	09	51	55
Total after expunging multiples of 12 signs	03	09	51	55

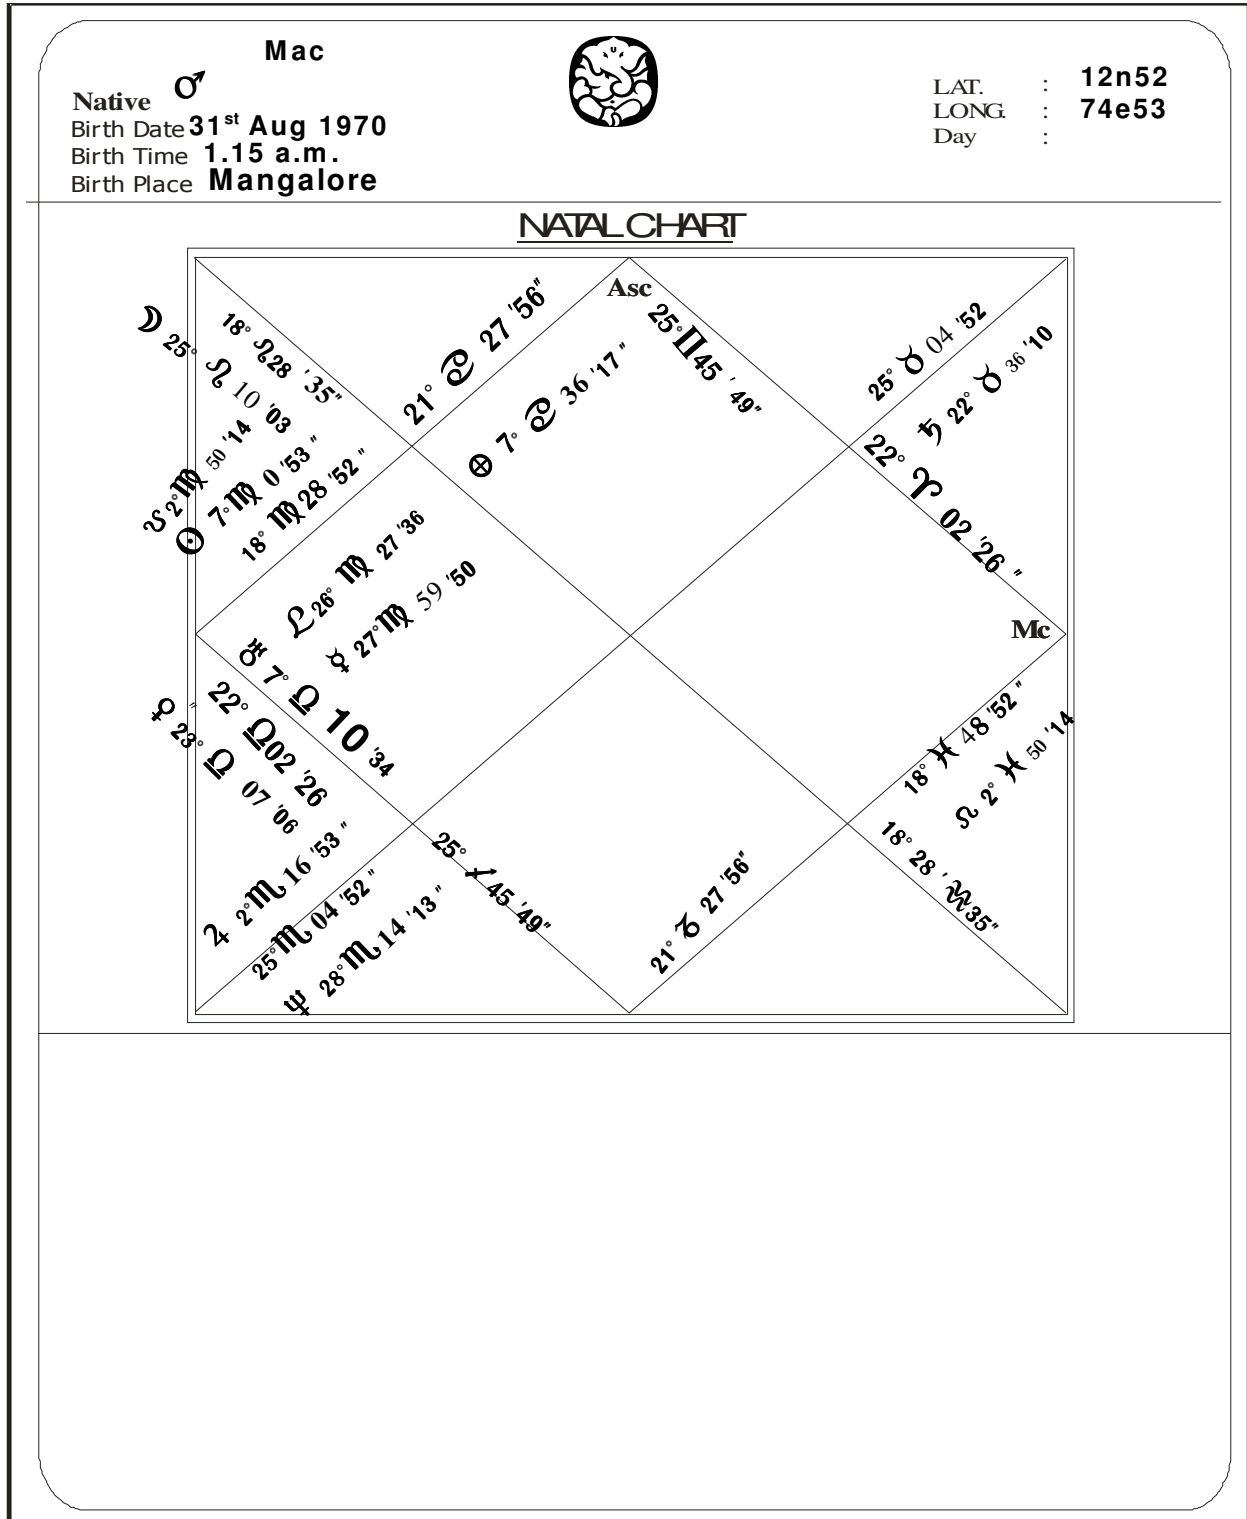

i.e 09° 09' 51" 55"

Transit planets favourably aspecting Suryendus of VIth House (11° 02' 04") and Xth House (09° 09' 51" 55") at the time of his appointment as a government servant in March 1993:

ASTROLOGICAL POINTERS TO PROFESSION – TIMING OF FIRST SALARY

The native is highly qualified and used to attend interviews quietly competently. Due to the good economic family background, she did not feel the pinch but was frustrated. She was so desperate at being rejected despite her talents, that she pondered to change worlds. She did consult many fortune tellers, including Sarah Freders. A desperate person wants to have hope, however faint it might be.

She came to me in June 2001 and related her miserable and pathetic tale. I did the calculation in the following manner.

For service and wages add the longitude of the lord of the Xth house (Moon) to the sum of the longitudes of the Sun, the Moon and the Ascendant, as shown below:

Planets & points	S	°	'	”
The Sun	8	24	29	54
The Moon	10	00	13	38
The Ascendant	6	11	03	23
Moon (Lord of X)	10	00	13	38
Total	35	06	00	33
Total after expunging multiples of 12 signs	11	06	00	33

i.e. 06 \times 00.33

Transit planets favourably aspecting Suryendus of Xth House (06 \times 00.33) at the time of his appointment as an employee on 13th August2001:

Planet	In Sign and degree	Aspect made by it to Suryendu of Xth house
♃	00 Π 08	Mutual aspect to Suryendu of Xth house
♃	00 \mathcal{P} 34	Trine aspect to Suryendu of Xth house
♃	04 \mathcal{P} 06	Trine aspect to Suryendu of Xth house
♃	04 \mathcal{P} 28	Trine aspect to Suryendu of Xth house
